1. The law requires that you file this return annually, not later than April 15, reporting on activities of the prior calendar year. Calendar year for which you are reporting → **1998**
2. Generators pay all fees for hazardous waste generated in Iowa, except the fee listed in item 6b, which is paid by the transportation company. If waste generated outside of Iowa is disposed of or treated in Iowa, the owner of the treatment/ disposal facility pays the fee.

Firms that only transport out-of-state waste **through** Iowa are exempt from paying the fee.
3. Do you represent an agency of the State of Iowa, or any of its political subdivisions, or the federal government? These categories are exempt from fee payment.

☐ Yes Complete the certification on the reverse and return this form. ☐ No Go to item 4.

NOTE

A person who is required to obtain a United States Environmental Protection Agency identification number shall pay the fees listed in items 4 through 7, below, if applicable.

4. a. Are you a generator of 2200 pounds a month or more of hazardous waste?
☐ No Go to Item 5a ☐ Yes Complete Item 4b

b. Enter fee due of \$250.00 (also record this amount on line 11a on the reverse of this form) 4b. \$
5. a. Are you a generator of less than 2200 pounds a month of hazardous waste?
☐ No Go to Item 6a ☐ Yes Complete Item 5b

b. Enter fee due of \$25.00 (also record this amount on line 11b on the reverse of this form) 5b. \$
6. a. Are you a transporter of hazardous waste?
☐ No Go to Item 7a ☐ Yes Complete Item 6b

b. Enter fee due of \$25.00 (also record this amount on line 11c on the reverse of this form) 6b. \$
7. a. Do you operate a hazardous waste treatment, storage, or disposal facility?
☐ No Go to Item 8a ☐ Yes Complete Item 7b

b. Enter fee due of \$25.00 (also record this amount on line 11d on the reverse of this form) 7b. \$

ATTENTION

If your hazardous waste **does not** meet one of the following exemptions, the fees in items 8, 9, and 10 on the reverse of this form may apply to your facility.

- Hazardous waste that was reclaimed or reused for energy or materials;
- Hazardous waste that was transformed into new products which are not wastes;
- Hazardous waste that was created or retrieved as a result of remedial action at an abandoned or uncontrolled hazardous waste disposal site;
- Influent wastewater to a treatment facility which is subject to regulation under either 33 U.S.C. 1317(b) or 33 U.S.C. 1342; or
- A hazardous waste which, due to its intrinsic physical, chemical or biological composition, degrades, decomposes or changes physical characteristics so as to be rendered or considered non hazardous without any form of external mechanical, physical or chemical treatment being introduced. However, such change to a non hazardous nature must occur within 24 hours of the generation of the hazardous waste before the exemption granted in this paragraph is applicable.

ENCLOSE CHECK OR MONEY ORDER payable to the Iowa Department of Natural Resources, 900 E. Grand Ave., Des Moines, IA 50319-0034 in the amount shown on line 12, above. Mail to the address shown in the NOTICE section on the front of this form (ATTN: Accounting) not later than April 15.

TERRY E. BRANSTAD, GOVERNOR

DEPARTMENT OF NATURAL RESOURCES

LARRY J. WILSON, DIRECTOR

January 15, 1999

To all hazardous waste generators:

The Code of Iowa (455B.424) places a fee on the generation, transportation, treatment and disposal of hazardous waste. All facilities having an EPA hazardous waste identification number are assessed the fee. Our records show that your facility has been identified by the U.S. Environmental Protection Agency as a hazardous waste generator and has, therefore, been assigned an EPA Hazardous Waste Identification Number. That number is shown in the address block on the enclosed DNR Fee Collection form.

Please complete the enclosed DNR Fee Collection form as described on the form. Attach a check or money order if appropriate, and mail to the Department of Natural Resources, 900 E. Grand, Des Moines, IA 50319-0034. Fees are due not later than April 15, 1999. A 15% penalty will apply to fees received that are postmarked after that date.

If your facility has not generated, transported, treated or disposed of hazardous waste within the borders of Iowa during the past calendar year, you do not need to pay a fee. However, you must complete items 1 through 10 and the certification on the reverse of the enclosed DNR Fee Collection form and mail the form to this department not later than April 15, 1999.

If you believe that you have been incorrectly identified by EPA, or if you are no longer in the business of hazardous waste generation, transportation, treatment or disposal, provide that information in the address block or on a separate sheet of paper and complete the certification section of the form before mailing the form to us not later than April 15, 1999.

If your address has changed, please note the new address in the address block of the form. EPA must also be notified of a change of address or a facility no longer in business. If you have received a form addressed to a facility no longer at your address, please note that fact in the address block of the form and return it to us.

Many facilities are under the mistaken impression that if a disposal company picks up the hazardous waste (i.e., leased parts washers), the disposal company is the hazardous waste generator. **This is not true.** The facility which uses the product and produces the waste is classified as the waste generator and must pay the applicable fees. The disposal company is responsible for the fee assessed on line 7b of the enclosed fee collection form, and it pays this fee independent of your fee payment.

PLEASE NOTE: The term "Conditionally Exempt Small Quantity Generator" does not apply to this fee. Every facility that generates hazardous waste regardless of how small the quantity must pay this fee since this is a state fee and not a federal fee. State law does not recognize the "Conditionally Exempt Small Quantity Generator" status.

The fees collected under this program will be deposited in the state's Hazardous Waste Remedial Fund. The money will be used for the identification, assessment and cleanup of abandoned or uncontrolled sites, and the development of alternatives to land disposal of these wastes.

This fee is different from the Household Hazardous Materials Permit fee of \$25.00, which fee is paid to the department by businesses *selling household hazardous materials*, not businesses *generating hazardous waste*. If you have any questions, please call the department's Solid Waste Section at (515) 281-8801.

We appreciate your cooperation.

DEFINITIONS

Relating to Hazardous Waste Fee Collection (extracted from 455B.411, Code of Iowa)

1. *Abandoned or uncontrolled hazardous waste disposal site* means real property which has been used for the disposal of hazardous waste either illegally or prior to regulation under this chapter.

2. *Disposal* means the discharge, deposit, injection, dumping, spilling leaking or placing of a hazardous waste into or on land or water so that the hazardous waste or hazardous substance or a constituent of the hazardous waste or hazardous substance may enter the environment or be emitted into the air or discharged into any waters, including ground waters.

3.a. *Hazardous waste* means a waste or combination of wastes that, because of its quantity, concentration, biological degradation, leaching from precipitation, or physical, chemical or infectious characteristics, has either of the following effects:

- (1) Causes or significantly contributes to an increase in mortality or an increase in serious irreversible, or incapacitating reversible illness.
- (2) Poses a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed. *Hazardous waste* may include but is not limited to wastes that are toxic, corrosive or flammable or irritants, strong sensitizers or explosives.

3.b. *Hazardous waste* does not include:

- (1) Agricultural wastes, including manures and crop residues that are returned to the soil as fertilizers or soil conditioners.
- (2) Source, special nuclear, or by-product material as defined in the Atomic Energy Act of 1954, as amended to January 1, 1979.

4. *Treatment* means a method, techniques or process, including neutralization, designed to change the physical, chemical or biological character or composition of a hazardous waste so as to neutralize the waste or to render nonhazardous, safer for transport, amenable for recovery, amenable for storage, or to reduce the waste in volume. *Treatment* includes any activity or processing designed to change the physical form or chemical composition of hazardous waste to render the waste nonhazardous.
